CANCER SHIELD *Scheduled Benefit Policy*

MANY SENIORS ARE UNDER THE IMPRESSION THAT MEDICARE COVERS ALL CANCER TREATMENTS

...but did you know
ACCORDING TO MEDICARE, YOUR DOCTOR MAY RECOMMEND SERVICES THAT MEDICARE DOESN'T COVER.

If this happens,
YOU MAY HAVE TO PAY SOME OR ALL OF THE COSTS.¹

WHICH CAN LEAD TO

CANCER TREATMENT OUT-OF-POCKET COSTS ASSOCIATED WITH MEDICARE

A 2016 Johns Hopkins study showed the average out-of-pocket costs were as high as **\$8,000 ANNUALLY** for those on Medicare who had a cancer diagnosis.²

Access to the best cancer treatments often leads to **TENS OF THOUSANDS OF DOLLARS** in out-of-pocket costs.

Is this how you would choose to spend your hard earned retirement money?

3 in 4 American families will get cancer in their lifetime³

Additionally, only **10%** of cancers are hereditary⁴

Return of Premium Upon Death Benefit Rider *(not available in GA, PA, TN & TX)*

This rider pays a return of premium benefit in the event of your death. The actual amount of premium that will be returned, if any, will equal:

1. The sum of all premiums paid for the policy, including premiums paid for this rider and any other benefit riders attached to the policy (unless expressly included), while this rider is in force (except for any application and annual policy fees.) The sum of all premiums is without interest accumulations. MINUS
2. The sum of all benefits paid or then payable under the policy, including benefits paid or then payable under any attached benefit riders while the rider was in force.

*In the event a therapy or treatment is prescribed as both Chemotherapy Treatment and Immunotherapy or Radiation Treatment and Immunotherapy, benefits under this Rider will be limited to the greater of the Chemotherapy and Immunotherapy or Radiation and Immunotherapy, as shown in the Rider Benefits Schedule. In no event will this Rider pay benefits for both Chemotherapy and Immunotherapy or both Radiation and Immunotherapy unless such therapy and/or treatment is administered independently of the other. (Does Not Apply in KS, OH & PA)

What the first year of benefits paid **DIRECTLY** to **YOU** might look like...

		<u>Plan A</u>	<u>Plan B</u>	<u>Plan C</u>
	Express Pay Benefit upon diagnosis*	\$20,000	\$30,000	\$30,000

	One round-trip travel to cancer treatment facility with family member over 50 miles away and stay for two weeks:	Up to \$4,800	Up to \$10,200	Up to \$15,600
	Chemotherapy 1x/week over 4 months and Radiation 5x/week over 2 months throughout the year:	\$6,200	\$12,400	\$18,600
	One surgery throughout the year:	Up to \$5,000	Up to \$10,000	Up to \$15,000
	In the above example, UNL, over the course of a year, would pay YOU DIRECTLY :	Up to \$38,000	Up to \$67,000	Up to \$86,200

*If Optional Express Pay Rider is Included

Waiting Period/Policy Definitions

Waiting Period or Rider Waiting Period:

The number of days after the Effective Date before We will pay benefits for Loss due to Cancer, Cancer In Situ Heart Attack or Stroke. The Waiting Period, if any, is shown in the Policy/Rider Schedule. If a Positive Diagnosis of Cancer or Cancer In Situ, or Diagnosis of Heart Attack or Stroke is made during the Waiting Period, You have the option to cancel the Policy and receive a refund of all premiums paid.

Policy Definitions for the Following:

Cancer: A disease manifested by the presence of a malignancy characterized by the uncontrolled growth and abnormal spread of malignant cells and the invasion of body tissue by such malignant cells. Cancer includes Hodgkin's disease and leukemia. This definition excludes such conditions as:

1. Skin Cancer, except malignant melanoma; and
2. Pre-malignant tumors or polyps.

For the purpose of this Policy and benefits payable thereunder, Cancer includes cancer in situ, which is an early stage cancer that is defined as "in place" and which has not spread beyond the tissue type, mucosal layer, lining, duct or cellular layer in which it originated. It may be staged as Stage 0, T0, Tis, or notated with a staging system appropriate to the cancer type and utilized by a recognized medical authority, such as the American Joint Cancer Committee.

Heart Attack: A myocardial infarction (irreversible injury and death of a portion of the heart muscle as a result of obstruction of one or more of the coronary arteries.) Diagnosis of a Heart Attack must be supported by three (3) or more of the following:

- a. Typical clinical symptoms, such as central chest pain;
- b. Diagnostic increase of specific cardiac markers;
- c. New electrocardiographic (EKG) changes indicative of infarction;
- d. Confirmatory imaging studies; or
- e. In the event of death, an autopsy confirmation or death certificate identifying Heart Attack (myocardial infarction) as the primary cause of death.

"Heart Attack" does not mean cardiac arrest, sudden cardiac arrest, coronary artery disease, congestive heart failure, atherosclerotic heart disease, angina, or any other dysfunction of the cardiovascular system. Heart Attack also does not mean a silent/old Heart Attack, which is a prior incidence of heart attack which has few, if any, symptoms

and is generally discovered at a later date through imaging tests, such as electrocardiogram (EKG) or echocardiogram.

Stroke: An acute cerebrovascular accident or incident, embolism, thrombosis or hemorrhage which results in paralysis or other measurable objective neurological deficit lasting more than twenty-four (24) hours. A cerebrovascular accident is a sudden, unexpected interference in brain function caused by insufficient blood flow to part of the brain. Diagnosis must include imaging documentation of new brain tissue infarction in association with acute onset of symptoms consistent with central nervous system neurological damage.

For the purposes of this Rider, Stroke does not include:

1. Chronic cerebrovascular insufficiency;
2. Transient Ischemic Attacks (TIAs);
3. Transient Global Amnesia (TGA);
4. External trauma causing accidental injury to the brain;
5. Brain damage due to infection, vasculitis, encephalopathy, or inflammatory disease; or
6. Ischemic disorders of the vestibular system
