Affordable with a wide range of options

Dental Plus insurance covers expenses such as routine exams and fillings so you don't have to. The "Plus" plan covers a wide range of services including orthodontics and implants.

This insurance supplements and complements other health insurance plans. It can help reduce or even eliminate your out-of-pocket costs for preventive care for your teeth.

This type of insurance is sometimes overlooked until what was once routine maintenance, becomes an urgent issue. Preventive care can lead to early detection of other diseases and health problems such as cancer and diabetes.
