Payment options

You have a choice among several payment options or modes for paying your premium – annual, semi-annual, quarterly, and monthly bank draft. Each payment mode, other than annual and monthly bank draft, results in higher total yearly premium costs. Reasons for higher costs include added collection and administrative costs, time value of money considerations, and lapse rates.

The annual and monthly bank draft modes have the same total yearly premium costs. As a result, there is a time value of money advantage to you for paying monthly versus annually. However, there may be other advantages to you for choosing an annual payment based on your preferences. Your agent can explain the differences in modes and help you decide which is best for you. You have the right to change your payment mode, among the modes available, during the life of your policy.
